Digital Watchdog VMAX A1 Quick Reference Sheet

Search for Recorded Video *(Reference User Manual Page 25)*

1. Right-click anywhere on the screen, select Search → Date/Time (Using a Mouse)

2. Select Year Month and Time of incident you are looking for. (See Below #4)
3. Days color coded red on calendar have recorded video. Days color coded black have no recorded video (See Below #1)
4. The Search bar will display hours when recorded data is available in color code. (See Below #3 and #2)
5. When user has confirmed the Search time, click play to view the video data selected. (See Below #5)
6. Click cancel to exit search screen.

Most common colors:

Color	Recording Mode
No Color	Camera has no recorded data for the selected time.
Red	Panic recording triggered by the user.
Yellow	Continuous recording.
Green	The system records only when motion is detected

Export *(Reference User Manual Page 52)*

Archive video from the DVR's files to an external storage device. You can also backup video using the "Quick Backup" during playback.

1. Right click anywhere on screen & select export tab.
2. Connect USB drive with sufficient storage to the DVR and press 'Scan'. Backup device should be a well-known major brand USB thumb drives formatted by FAT/FAT32 for proper backup.
3. Select which channels to include in the backup file.
4. Set the start and end time to backup.
5. Select to include the backup player on the USB or not.
6. Press 'Calculate'. The system will display estimated necessary storage space for the set start and end time. If necessary, adjust the times to adjust the file size.
7. You can also limit the backup file according to the file size.

8. Press 'Start' to initiate the backup process. Data files are in PSF format in the folder. Once back up is completed at 100% click ok and remove USB stick from DVR. Your video is now saved on your USB stick.
9. Press 'Start' to initiate the backup process. Data files are in PSF format in the folder. Once back up is completed at 100% click ok and remove USB stick from DVR. Your video is now saved on your USB stick.
10. Click close to exit
